

# 2<sup>nd</sup> Advanced Optical Imaging Workshop

Melbourne, Australia, November 26-28, 2007

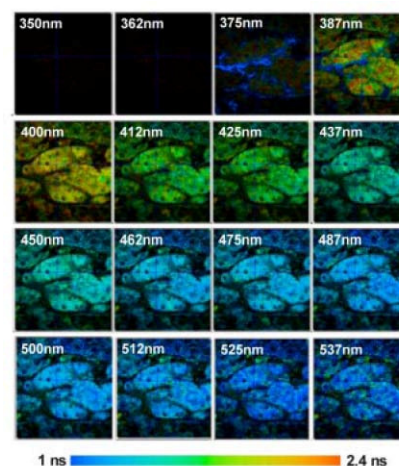

Organized by

The University of Melbourne, School of Chemistry  
and Becker & Hickl GmbH, Berlin

## Topics:

Fluorescence Lifetime Imaging Microscopy  
Multi-Spectral FLIM  
Multi-Photon Microscopy  
Fluorescence Correlation Fluorescence  
Resonance Energy Transfer  
Tissue Autofluorescence  
Time-Resolved Fluorescence Spectroscopy  
Near-Infrared Spectroscopy  
Diffuse Optical Tomography  
Fluorescence in Diffuse Systems  
Second Harmonic Generation Imaging  
Single molecule spectroscopy

## Speakers:

Wolfgang Becker, Becker & Hickl, Berlin, Germany  
Toby Bell, University of Melbourne  
Christoph Biskup, University Jena, Germany  
Damian Bird, The University of Melbourne  
Michael Börsch, Physikalisches Institut, Universität Stuttgart  
Marcos Dantus, Michigan State University  
Enrico Gratton, UC Irvine, CA, USA  
Min Gu, Swinburne University  
Vladimir Gukassyan, National Yang-Ming University, Taiwan  
Dirk-Peter Herten, Universität Heidelberg, Germany  
Shaun Jackson, Australian Centre for Blood Diseases  
Tak Kee, Adelaide University  
Nick Klonis, Latrobe University  
Keith Nugent, The University of Melbourne  
Mark Prescott, Monash University  
Michael Roberts, School of Medicine, University of Queensland  
Angelika Rück, Institute for Laser Medicine, Ulm, Germany  
David Sampson, The University of Western Australia  
Bertram Su, Becker & Hickl, Berlin, Germany  
Klaus Suhling, King's College London  
Trevor Smith, The University of Melbourne  
Steven Vogel, NIH, Rockville MD, USA
